Dear MISS ROBBINS

I am sending you this info about my recently released book, 'War and Peacey'. The book details the life and eventful naval service of Christopher John Peacey. I have had 4,000 copies printed, which has enabled me to achieve the reasonable price of £10 per book (which is low for a book with 30 illustrations by a talented artist). You don't have to be ex-navy or a man to enjoy this truly interesting story. I hope there is some way you can support the book by spreading news of it to your members, either at your meetings or on your news forum. If you meet at a host club perhaps you will be kind enough to inform their members of the book as well. I need to sell these books before I fade away, and hopefully raise funds for Combat Stress in the process, an organisation which is close to Chris's heart.

I am booking events where I can sit at my little table to sell books while collecting for Combat Stress, any such event you are aware of please let me know by e-mail if possible.

Yours sincerely

Bob Clarke - ex RN and former submariner.
